The Tupper Church Embroglio.
As I have been arraigned before
the Mayor of this city and fined one

before Judge Watts, and the proceed-

ings against me declared illegal, in

and in order to do this understand-

the department of school located in

as the Second Baptist Chu ch, and

became its pastor. Immediately a

Board of Trustees was formed and I

paid in five consecutive years, and if the conditions specified in the deed were not complied with then the

property was to revert to me. In the

Autumn of 1869 I made application

to the Freedmen's Bureau for an appropriation to assist in the completion

of school rooms, etc. A certain colored individual, a resident of this city,

was in Washington and represented

to the officers of the Bureau that the

enterprise with which I was connect-

ed was of a private character. This fact was communicated to the Agent

of the Bureau in this place, and to

remove all doubts as to my intentions

and the nature of the enterprise, I

informed the Church that I was ready

to cancel the notes myself, and give

a deed with full warranty to a Board

of Trustees and their successors in

office, who should hold the property in the name of the Raleigh Institute

than the interest on the notes, and

only a little more than a year re-

mained before the last note became

due. The church records show that

the old Board of Trustees were put

out of office and a new board elected,

After the Barringer place was purchased for the location of the school,

our plans were somewhat changed as

to using the church for school pur-

poses. We no longer needed the rooms which had been completed

and used for dormitories. It was

then agreed that these rooms should

be taken out and the whole

upper story should become the Au-

ditorium. In consideration of yield-

ing up to the church this story and to

settle the matter beyond all contro-

versy in the future, he church re-

cords show that a vote was taken at a

regular meeting, authorising the

trustees to lease the whole lower

story to me for school purposes, and

I hold a lease as the Agent of the

American Baptist Home Mission So-

ciety, New York city, and my suc-

cessors as agents for a term of nine

hundred and ninety-nine years-to

be used for the highest interest of the

colored people in the way of their education and elevation. It is under

such authority and such arrange

ments with a commission from the

American Baptist Home Mission So-

ciety, under whose auspices the entire

work has been carried forward, and

in accordance with the stipulations

and expressed wishes of those dona-

ting funds, that I have for seven

and a half years maintained a school

in the whole lower story of the

church unmolested and unquestioned

as to my right until the building, a

few month since, was forcibly broken

into by order of the Mayor, and a

large number of pupils deprived of school accommodations, and more

than a thousand dollars of personal

and school property placed at the

mercy of an ignorant and irresponsi-

ble crew; and even the school books.

the private property of some of the students, were denied them; and yet,

it is alledged, with mocked innocence,

that they never intended to disturb

the school. In relation to my con-

nection with the Second Baptist

Church I will state that for six years

I remained its sole pastor, but as my duties as the President of the Shaw

Collegiate Institute became more

laborious, I requested the Church

to select some colored minis-

ter to become the associate pastor, and they made choice of Rev.
Augustus Shepard, who until last
July, performed all pastoral labor,
and in the meantime I gave him such

assistance in the regular religious

services as my other duties would permit. As he accompanied me

North last season, the church then

secured the services of Rev. Joshua Perry, of Louisburg, with whom they had just completed arrangements for

his continuance through the present

year, when they were forcibly driven out of their church which

they had occupied for seven years and

a half, and so far as I can recollect,

conducted religious services every

Sabbath during the entire period. And now who are these persons, armed with the authority of the Mayor,

in the darkness of the night, walk

have been received into its fellowship,

and of these some forty or fifty have

been excluded, mostly for drunken-

ness and gross immorality; few of these held the position of trustee

but one of those named in the execu-

tion held the position previous to December 29th, 1869, the time when the second deed was given,) and although the church has a full record

ment of a successor, yet these persons, the dupes and tools of designing men,

plotting and conniving with an

abandoned class of people, have been

placed in possession of a valuable

property in open violation of law, to the detriment of school and church.

To stir up prejudice and give support to these illegal proceedings, it is a firmed that I am seeking to get the

church away from the colored people. The facts are, I have been laboring

for years to build them a church,

to whom I deeded the property.

HOUSE SUMMARY OF YESTERDAY. -The time of the House yesterday was consumed in the bill appropriating \$45.500 for the support of the Deaf and Dumb and Blind Institution for the current year. The bill passed its several readings after a long discussion. Several attempts were made to cut down the sum, all of which failed. The objection to the bill was that \$6,500 of the amount is to go to make up a defect, caused by an unauthorized additional expenditure, on the part of the Board of Directors, in the completion of the building from the colored department. The amount appropriated at the last session of the General Assembly for this purpose was \$5,000, and the Board of Directors after sinking this sum, spent an additional \$7,000 in the work. A number of members, of both parties, contended that the House swould not endorse this unauthorized action on the part of the Directors by passing the bill in the shape as presented by the Committee.

The bill to establish the new county of Lillington, came up on its second reading, but the House adjourned pending its discussion.

Reports of Standing Committees. Messrs. Murray, from enrolled Bills, Merrimon, from the Judiciary, Cowles, from the Internal Improvements, Smith, from Corporations, Worth, from Finance, submitted reports from their respective commit

Bills, Resolutions and Petitions. By Mr. Troy, a resolution in regard to the Penitentiary, which was, on his motion, adopted under a suspen-sion of the rules. The resolution pro-vides for an investigation in certain affairs connected with the manage-ment of that institution, and the

power to send for persons and papers. By Mr. Harriss, col., a bill with an accompanying petition from the Grand Jury of Wake county, to provide for the transportation of prisoners from the Penitentiary to the counties from whence they came. Referred.

By Mr. Powell, a bill to incorporate the Lockville Cotton and Woolen mills. Referred.

By the same, a bill to incorporate the Cape Fear Cotton and Woolen mills. Referred. By Mr. Cramer, a bill to re-enact sections 4, 5, 6 and 7, of chapter 104, of the Revised Code of North Caroli-

na. Referred. By Mr. Allen, (at the request of another Senator) a bill to repeal the fence law in the counties of Perquimmans and Chowan. Referred. By Mr. Troy, a bill to amend an

act to incorporate the Falls of Neuse Manufacturing Company, ratified the 5th day of January. Referred. By Mr. Ellis, of Catawba, (by re-quest,) a bill to authorize the registration of deeds in certain cases. Re-

By Mr. Avera, a petition from citizens of Johnston county in regard to a prohibitory liquor law. Referred. Motions.

On motion of Mr. Grandy the report of the Joint Select Committee on the visit of the State Geologist to the Vienna exhibition, was ordered to be transmitted to the House. On motion of Mr. Worth, it was ordered that when the Senate adjourn it will adjourn till 7½ o'clock this evening.

On motion of Mr. Worth, a Committee of three were appointed to examine the calendar and separate therefrom the private bills. The President announced Messrs. Worth, Ellis, of Catawba and Grandy.
On motion of Mr. Gudger, Senate

bill 325 in regard to the public lands in Burke and Haywood was made the special order for Tuesday next at 11:25 clock. On motion of Mr. Worth the bill for the adjustment of the State debt

was made the special order for Monday next at 12 o'clock, and the several communication from State officers now on the President's desk be referred to the Committee on the State Miscellaneous.

A large number of bills and resolutions transmitted by the House and asking the concurrence of the Senate therein, were received and properly referred. In the number was the Civil Rights resolution, which was referred to the Judiciary Committee.

Mr. Dunham objected to the concurrence of the Senate, as the resolu-tion was objectionable in its present

Harriss attempted to get in a resolution as a substitute to be referred with the resolution, but was ruled out of order.

Rules Suspended.

On motion of Mr. Miller, the bill to authorize the Chairman of the Board of Commissioners of Cleveland county, to make title to certain lots, was taken up under a suspension of the rules and passed its severa! readings. On motion of Mr. Waring the resolution in regard to the penal and benevolent institutions, was taken up and adopted.

The resolution reads. "Resolved by the Senate, and the House of Representatives concurring, that a committee of three on the part of the Senate and five of the House, be appointed to consider and report some plan by which a more economical system may be devised for the penal and benevolent institutions of the State, and that they report by bill or otherwise.

On motion of Mr. Seymour the bill to amend the charter of the Neuse River Ferry Company was taken up and passed its several readings.

Unfinished Business. The unfinished business being the consideration of Mr. Dunham's motion to reconsider the vote by which the Usury Bill passed its final reading, was taken up and considered. A considerable discussion ensued

on the motion of Mr. Troy to postpone the further consideration of the bill to Wednesday next at 12 o'clock, and to be made the special order for that hour. The yeas and nays were called on the motion of Mr. Ransom to postpone till the 1st of March, and Mr. Troy's to postpone till Wednes-day, and both lost. The motion of Mr. Cowles to post-

pone till Saturday next prevailed. Special Order.

The bill for the better care and protection of the orphans of the State, came up as the special order at 12 As heretofore stated, this bill provides for an appropriation by the State equal to that given by private individuals to the Oxford Orphan Asylum.

Mr. Avera, at some length, advocated the passage of the bill. Mr. Dunham desired the sense of the Senate on the constitutionality of the bill, &c. Mr. Flemming advocated the bill,

and discussed at some length not on-

ly the constitutionality of the appro-priation, but its necessity, &c.

Mr. Merrimon discussed the point raised by Mr. Dunham, viz: the conthe bill was in accordance with that

once.

Mr. Dunham read several extracts

from the Constitution, which gave rise to the doubt in his mind, but he was willing to give the benefit of this doubt to the orphans of North Carolina. He, however, desired the opinion of older and wiser heads than his, and called on the Senator of Or-

ange for his views on the subject.

Mr. Norwood in response replied in substance: According to that loose-jointed instrument, the Constitution, the General Assembly in his opinion

could very properly press the bill.

Mr. Murphy advocated the bill and detailed much of the operations of the Asylum and the action of the Grand Lodge of Masons in relation thereto. and other matters connected with the origin, rise and progress of this noble nstitution.

Mr. Worth was willing to give as much from his own pocket to this institution as any other Senator on the floor of corresponding means, but as the representative of the people he could not vote out their money indis-criminately on all measures based on charity, though the appeals be ever so strong. He was willing to vote on the appropriation of \$2,500 to be equally divided between the congressional districts for an Orphan Asylum in each, but he could not vote on an appropriation of his constituents money in this isolated

HOUSE REPRESENTATIVES. At 10:30 a. m. Mr. Speaker Robinon called the House to order.

The journal of yesterday was read and approved. A number of petitions were presented.

Messrs. Waugh, Stanford, Carter, Gidney, Bennett, McNeill, Brown, of Mecklenburg, Joyner and Jones, of Caldwell submitted reports from

Standing Committees.
Mr. Brown, of Davidson, from the Special Committee in regard to the charges against the Board of Directors of the Penitentiary and Deputy Warden Thompson, submitted a report. The reports exonerates these officials. The report was placed on the calendar.

By Mr. Gorman, a bill to amend the act to protect the city of Raleigh from accidents by fire. Referred. By Ellison, col., a bill to declare certain larcenies to be misdemeanors and to provide for their punishment. Referred

By Mr. Waugh, a bill to amend the act to incorporate the Mount Airy & Central R. R. Referred. By Mr. Carson, a bill to prohibit the sale of liquor near a certain Camp Ground in Alexander county. Re-

ferred. By Mr. Brooks, a bill to prohibit the sale of liquor near a certain church in Brunswick county. Re-

Special Order.

The bill to provide for an appropriation for the support of the Insti-tution for the Deaf and Dumb and Blind for the current year, was taken up as the Special Order. [The bill provides for an appropriation of \$46,-500, \$6,500 of which is to be expended for the completion of the building for the colored department.] Mr. Brown, of Mecklenburg, moved

and print. Lost. The bill was ordered to be read by sections. The first section was read Mr. Bean moved to amend by strikng out "\$46,500," and insert "\$45,-

to make special order for Monday

Mr. Moring moved to amend the amendment by saying "\$40,000." Mr. Turner moved to postpone antil Saturday next. Ruled out of order. A very long discussion ensued. The previous question upon the adoption of the section was refused.

Both of the amendments were voted down. The first section was adopted Mr. Gilbert offered a proviso that the Board of Directors of the Institution shall not be allowed to take any action which will create a deficit for the year 1874, which was adopted. The bill then passed its several reading, and was ordered to be sent to the Senate for concurrence in the amendment.

The Second Special Order, the bill to establish the new county of Lillington, was taken up. Mr. Brown, of Davidson, moved to

indefinitely postpone.

A long depate took place, when, on motion of Mr. Settle, the matter was postponed and made special order for to-morrow at 40:30 o'clock. By Mr. McNeill, a petition from citizens of Robeson county, protesting against the passage of a prohibitory liquor law, within four miles of Bethel Church. Referred.

BIG FALLS COTTON MILLS BURNED!

LOSS FORTY THOUSAND DOL-LARS!

NO INJUSANCE!

The Fire an Accident!

We learned by telegraph yesterday evening to Senator Murray, from Alamance, that the extensive cotton mills located in Alamance county, and known as the Big Falls Mills, belonging to Messrs. W. A. & A. J. Murray, were totally destroyed by fire yesterday morning at 10 o'clock, together with a flour mill adjoining. The fire was the result of an accident, catching from some of the machinery. The loss sustained is some \$40,-000, there being no insurance upon either the buildings or machinery.

The mills were established some 25 years ago, having been for 18 years in possession of she present firm. Aside from the loss sustained by the Messrs. Murray, quite a number of operators have been deprived of work. Mr. Murray, the popular Senator from Alamance, is of the firm which has met with this misfortune.

INTERESTING DISCUSSION IN THE SENATE—A REMINISCENCE.—One of the most interesting discussions which has yet taken place in the Legislature, occurred yesterday in the Senate, on the bill proposing to appropriate a sum out of the Treasury for the Orphan Asylum equal to the voluntary contributions made for the same object, not to exceed the sum of six thousand dollars.

While listening to the noble sentiments of the people's representatives in behalf of the humane objects sought to be accomplished by the bill, we were gratified at the exhibition of deep feeling manifested by the speakers. We were forcibly re-minded of the history of a former period in our Legislature, when North Carolina's statesmen were oleading the cause of humanity in the very Hall whence reverberated yesterday the noble and eloquent ap-peals in behalf of the helpless or-

We were reminded of the time when John M. Morehead, then Governor of North Carolina, sent his last message to the Legislature, in which occurred the following language in reference to a noble State charity:

phans.

deeded this property to these Trustees of the church, composed entirely of colored men, and in payment took five one hundred dollar notes, to be "I conjure you, by your duties as wise legislators, by all the feelings of humanity and philanthrophy, by the precepts of our holy religion, to resolve never to abandon the seats which you now occupy, nor to behold your own beloved off-spring, until you have done your duty to those afflicted children of Providence, by the adoption of some measure for the improvement and amelioration of their condition."

And in listening to the speeches of Messrs. Flemming, Merrimon, Norwood and Murphy, we were reminded of the eloquent effort of Hon. John A. Gilmer, in the Senate of North Carolina, when speaking on a simi-lar subject. Luckily for the memory of Mr. Gilmer and the honor of the State, this speech is preserved. How well his remarks apply to the Orphan Asylum. Read an extract:

This is a case of humanity, a cry that comes up to us from all the land; an appeal for relief, urged to our most and Second Baptist Church. The church accepted of the proposition as they never had been able to pay more serious consideration by every chris-

tian philanthropy.
"Educated as I have been by a pious mother, I shall not feel easy till we have carried out this project—shall not feel that I have entitled myself as a legislator to the approving smiles of that christian mother, or the con-science which, under Deity, she helped me to fashion, nor to the applause of those constituents who have clothed me with a little brief au-

"Talk about taxation! Among the people of North Carolina there will be found more liberality, more philantrophy than Senators seem to be aware of. Indeed the honest states $man \, who \, reposes \, a \, generous \, confidence$ in the liberality and justice of the people, will ever be sustained, while those time-servers who measure the public heart by their own narrow and selfish notions, will, in the end, meet with merited rebuke.

"Taxation! Is the wail of distress which comes up from all the jails of the State to be answered thus? "Talk of a little tax, a paltry sum of money, which all can pay and few will miss in connection with a great cause of humanity! Let Senators

sustain this bill, and they may be assured it will not only increase their friends on earth, but will add stars to their crown of rejoicing in that great day when the beings for whose benefit this law is proposed \* \* \* shall rise up in judgment against those who withheld their aid."

And Senator Kenneth Rayner, on the same occasion, said: "Shall we hesitate to impose the slight tax proposed, lest heartless demagogues may cry out against taxation, and attempt to inflame the public mind? Sir, the people will sustain us. Our constituents have hearts-hearts of sympathy and feeling-and to them we will appeal. We shall receive their gratitude instead of their censure. Think of how many minds now shrouded in darkness we may be the means of bring to the light of knowledge and of Christian hope? Think of the many whose awful ravings of despair we may convert with grateful invocations of blessings on our heads And although the thanks and prayers of their grateful hearts may never reach our ears, yet like holy incense they will ascend to Heaven, calling down the favors of Almighty goodness on our efforts." And William H. Washington, in the Senate of North Carolina, in his

argument in advocacy of the same measure, said: "For what are we here assembled To do the will and alleviate the wants of our constituents-to improve the physical, intellectual and moral condition of the people of the

State.' The historian from whose book the foregoing extracts are taken, alluding to this debate in the Legislature, says:

"The display of sentiment on the

occasion in both houses of the Assembly was honorable to the State; and several extracts have been given because they breathe a healthy spirit of true philanthrophy, and in a few pages, comprise the whole science of statesmanship." And the same compliment might with equal propriety be applied to the efforts of the Senators yesterday in favor of the relief of the orphans.

We would be glad if these gentlemen

would write out their remarks for

publication, so that future genera-

tions may know that some members

of the Legislature of 1873-'74 are enti-

tled to have their names placed while a member of the church, (all alongside of North Carolina's philanthropic statemen of a former and a better age. It is further alledged "that I oppress the colored people and am getting rich out of them." The facts are that for my eight and a half years work as a paster principal other words quashed, yet the result of this high handed and gross out-rage is that a church has been turned out into the streets, and a depart-ment of our school has been broken half years work as a pastor, principal of a school, and builder, I have re-ceived only eighty-five dollars for my services from the colored people of North Carolina, and when I am up. If these persons had wrongs to settle with the church, why did they not bring action against the present Board of

Trustees?
Other various charges I will pass by in silence, and only remark that if the body of people who have maintained religious services in the building known as the 2nd Baptist Church for the left server. ing known as the 2nd Baptist Church for the last seven years, or even for the last twelve months, if they are not a church in the eye of the law, then there is not a church organization in the State, and if only a good honest Catholic Magistrate can be found, and a few persons excluded from a church, any church edifice can be broken into, congregation dispersed, and a polite Constable placed at the door on the next Sabbath morning to give dignity to the occasion, and the pastor for maintaining heretical opinions will be let off with a fine of only one hundred dolwith a fine of only one hundred dollars and cost.

There is another aspect to such hurried and violent proceedings, and one in which every citizen must be interested. It will greatly embarrass benevolent operations. Let it come to be understood that there is nothing sacred in the eye of the law, that churches and schools can be molested and even broken up at the caprice of a Magistrate, and that an appeal will not stay proceedings until the case can be tried in a higher court. Who could raise funds for benevolent enterprises? I certainly should prefer to be relieved from any further effort

to secure funds in the North. The facts which I have stated are fully sustained in every particular by the leases, deeds and church records, and so far as my management of church affairs are concerned. I have been careful to guard myself against misrepresentation as I have clearly understood the tactics of outside parties for years, and whenever any matter has come up where there was a liability of difficulty in church meetings there has always been present several of the most talented, best educated and prudent colored men in the State, and they have sustained me, and as they are conversant with all the facts the testimony of these Baptist ministers cannot well be overthrown. H. M. TUPPER.

#### EDITORIAL JOTTINGS.

It is reported that the pay of retired naval officers is to be razeed.

The Naval Commission in regard to the sinking of the Virginius has adjourned. Their conclusions have not yet been published.

The appointment of Mr. Waite as Chief Justice has given entire satisfaction in the West, where he was best known.

Senator Brownlow is opposed to an inflation of the currency, and at the same time opposed to a resumption of specie payments.

The House branch of the Missis-

sippi Legislature has a negro Speaker. This is a sufficient indication of the political complex of that body. The mortuary report of Richmond, Va., for the last year shows that the

number of deaths by apoplexy and paralysis of the two races was exactly equal. It cost the country \$75,000 to prevent Caleb Cushing becoming Chief Justice. That was the price of the

They joined in a formal note in assuring the President that, should he promote one of their number to fill the vacant seat, none of them would feel any jealousy of the fortunate in-

The Cincinnati Commercial, a Republican paper, has the two following items:

"Congress never needed watching as much as now. There will be stealing by the million to compensate for the 'repeal' of the 'grab,' which leaves the back pay grabbed and the double

pay untouched. 'It would not be a bad idea to have those 'rebel archives' overhauled, to see whether they contain any scraps of paper bearing the name of Ben. Butler. The chances are, however, that Ben, has already been through them, pretending to be in search of testimony against somebody else."

"THE West is to be Dictator!" These were the words in which Mr. WRIGHT, of Iowa, announced in the Senate on Monday, that the "irrepressible conflict" between the agricultural interests of the Western States and the manufacturing interests of the Eastern had come. This is to be the battle-cry in a struggle which has been for many years postponed-postponed by that other "irrepressible conflict" of which WIL-LIAM H. SEWARD was the declarent and exponent: then by the war which resulted because of its wicked declaration and finally by the necessities and the hopes which were born of that war-but which now, with these disturbing causes removed, asserts itself as still existent and ap-

proaching culmination. The people of the great West are chafing under their bondage to the manufacturing magnates of the East. They have come to see that they have been all the while bearing the burdens of the government, but robbed of its benefits; that the legislation of the country has been steadily directed to the fostering of the industries of New England and the Middle States at the expense of their development and prosperity. And now they have determined to shake off the bondage; to cease to be "hewers of wood and drawers of water," and to assert the power they hold in the control of the governmental affairs of the nation. They are rising in the majesty of their might to so adjust the laws of this land as to destroy their hostility to their well-doing; to so regulate the burdens of the government as to make them bear equally and justly upon all sections. New England is to be stripped of her exclusive privileges and made to assume her just proportion of the taxation necessary to the administration

of the government. Let the fight go on! Our interests are identical with those of the West, and from every effort in this direction which she makes for the bettering of her condition, we get the benefit. The vast body of her people are like ours, engaged in agriculture, and the South yields ready sympathy and support to every movement looking to a fair and honest regulation of the burdens of government.

OUR readers will probably remember that a charter was passed by the Legislature at the session of 1872-73, incorporating a railroad bearing the imposing title of the "New York. Norfolk and Charleston Railway Company." Beginning at Norfolk. the road, it was said, would enter the State in Pasquotank, pass somewhere between the Wilmington & Weldon Railroad and the Seaboard, and leave the State at some point in the county of Columbus, we believe.

The bill of incorporation, while on its passage, excited a long and animated discussion, but it prevailed because of a prevalent sentiment in favor of granting charters for works of public improvement which asked no appropriation from the State.

in various of the counties of Eastern Carolina in advocacy of the subscriptions to its capital stock and some supscriptions were, if we mistake not, actually made.

The people living along the line of its projected route were jubilant over the prospect of increased facilities for transportation, as well as because of the enhanced values of the property. Alas for the vanity of human expectation! The charter granted by the State of Virginia allowed subscriptions by cities and counties, as we infer from the fact that a subscription of \$1,000,000 was sought from the city of Norfolk. How the matter got into the courts, we are not informed, but it did so, as we learn from our contemporary, the Landmark. Judge Burroughs refused an order allowing the question to be submitted to a vote; and lo! the New York, Norfolk and Charleston Railway was not. Mr. KAMES, its agent, closed his office and left the city, forgetting to settle a small bill for rent due our friends, the proprietors of the Landmark.

We extend our hearty condolence to the Landmark in its bereavement, by reason of the deprivation of the society of the "pale haired youth from Philadelphia," as well as for the loss of that little balance due for rent. If the ownership of the charter of this "great through line" will repair their loss, it may be possible that the Legislatures of Virginia and North Carolina might be induced to transfer it.

THE banking scheme presented below is the product of the research and experience of Mr. Ellis, Superintendent of Banks for New York. The plan, simply stated, is that the States shall themselves regulate "theorganization, direction and supervision of the banks." In other words, it establishes a system of State banking, securing a deposit of United States bonds with the Comptroller of the Currency equal in amount to the amount of bills to be issued.

The plan is worthy of serious consideration. Below we give the scheme :

A PLAN FOR FREE BANKING, WITH STATE BANKS AND A NATIONAL CURRENCY.

"How then can we secure a uniform and stable circulation with a system of free banking applicable to all the States and under State supervision?

"First. Let the Federal government issue the circulation of the country. "Second. Circulation shall be is sued only to banks duly organized

under the laws of the State wherein locaetd. "Third. Any bank so organized Department, which exercises supervisory power over it, receive as much circulation as it shall deposit United States bonds with the general govern-

ment to secure the redemption of its "Fourth. The bills issued to one bank shall present the same appearance as those of like denomination issued to any other bank, except the imprint on the bill of the name and location of the bank, which shall indicate to what bank issued and by what bank redeemable.

"Fifth. All circulation so issued shall be redeemed by the bank to which it is issued, in specie, at one or more of the great money centres of the country.
"Sixth. All bills to be sent in the

first instance to the Banking department, or other State Department authorized by law, in the several States for the registration before delivery to the banks.

Seventh. The organization, direction, and supervision of all banks. the rate of interest paid, and all the practical details of banking to be left to the legislation of the several

#### States. Senator Merrimon on the Cur-

rency The associated press dispatches yesterday, from Washington, gave a pretty full report of Hon. A. S. MER-RIMON'S speech on the currency question, in the United States Senate.

If we have obtained a correct idea of Senator MERRIMON'S position, he is in favor of increasing the volume of national currency from now until the fourth day of July, 1876-the day of the Centennial exhibition at Philadelphia-and on that day, let there be a return to specie payment. He contended that there was not enough currency in the country at the present time to answer the demands of the public, and he alluded to the unequal distribution as between the North and the South. The South needed capital to develop her resources, to build railroads and other works of internal improvements, and the Comptroller of the Currency had the authority now to withdraw twenty-five millions of dollars from New England, to be distributed to the South and West. Senator MERRIMON does not think it right to contract the currency at this time.

for the reason that many outstanding debts were contracted under the greenback system, and the agreement was that these debts should be liquidated in this depreciated currency. It was obviously unjust to compel their payment on the gold basis. He thought, however, that if the Fourth day of July, 1876, was agreed upon as the day when specie payment should be resumed, all business could be regulated to that end, and the new

system would adjust itself accord-Senator MERRIMON contended that Congress could not regulate the volume of the currency-that laws could not fix it-but merchants and business men could. He opposed national banking system, and held that banks should belong to the people and not to the Government.

When Senator MERRIMON alluded Several public meetings were held | capital, and desired the emigration |

from the North to help develop its resources, Senator EDMUNDS, of Vermont, interrupted him by saying that "if the South desires capital, she must show calm and deliberate justice for all, so that life and property will be as safe as in New England." In reply to this, Judge MERRIMON showed by the statistics that the ratio of crime and outrage in New England was twice as great as that in the South, and assured the honorable Senator from Vermont that there was as much protection for life and property in North Carolina and all the Southern States as there was in Vermont or California.

EDMUNDS then referred to the social ostracism of Northern men in the South, and gave an instance at Newbern, N. C., where a Northern man, who had engaged in business

had been ignored. Judge Merrimon very successfully replied to this point of Mr. ED-MUNDS' remarks, by showing how Northern men who behaved themselves were treated in North Carolina. He referred to the kind reception given to Mr. SPINNER, atCharlotte, a few days ago, and he might have added a number of instances of Northern men who had gone to Newbern, who were respected and esteemed by the native citizens.

Men of bad character at the North cannot expect to come South and be treated with civility by our people.

Ex-Gov. Henry H. Wells, of Virginia, now a resident of Washington city, has instituted suit in the Circuit Court at Richmond against Rush Burgess, Esq., Collector of Internal Revenue, for \$1,000 damages, sustained by him in having to pay the United States income tax upon his salary as Governor of the State. This is understood to be a test case, and consequently involves a very large amount of money.

Mr. Bloom, robbed of \$3,000 in a sleeping car on the Nashville and Southern Railroad, sues the Pullman company to make them assume his loss. He claims that the conductor and porter, whose protection was inferentially guaranteed when he paid his extra fare, were asleep when the robbery was perpetrated.

Mrs. Henry Keep, widow of the late Henry Keep, President of the New York Central Railroad, was married in New York Friday to Judge Shelley, of Georgia. The Judge is a man of high standing and ample fortune.

In Frederick county, Va., a large number of poor people, in one section of the county, principally derive their support by gathering the sumac from the bushes on the mountain sides It is sold in Winchester, where there is a factory giving employment to a large number of hands.

A HIGH OLD TIME.—A most disgraceful scence occurred at a meeting of the Memphis board of aldermen Monday night. Alderman Davis, of the Third ward, rising to a personal explanation in relation to charges of an attempt to bribe Alderman Dent, of Fifth ward, to vote for him for chairman, was interrupted by Dent, who spoke of Davis as a villain. Davis retorted, "You're a har." Dent rushed at him and attempted to strike him. Dent then drew a pistol, but was seized by the chief of police. Several of Davis' friends tried to strike Dent after he was in custody, and a general melee ensued. Desks were broken, chairs knocked over, and a reporter collared an alderman who was trying to throw a heavy inkstand at Dent. Finally the latter was marched off to the station-house, and was fined \$50 and required to give bond in \$2,000 for his appearance at the criminal court

The full text of the Prussian Civil Rights bill proves it not so stringent and objectionable as was at first sup-posed. It is very little after all but our license law. It applies of course to all denominations equally, and simply provides that all marriages to be legal must be registered before the civil magistrate of the district in which they occur. A registration of births and deaths is also required. The law has created much opposition, which seems to us exceedingly foolish. The same thing that the Prussian law demands, is done here in the United States every day as a matter of course.

Petersburg, Va., December 17th, 1873. To the Farmers and Guano Dealers of North Carolina and Virginia: Gentlemen: To the mary of you with whom I am personally acquainted, I would say, that of good results from GUANAHANI GUANO, I have not the shadow of a doubt. Containing, as it does, in such large amounts, the essentials for plant food, success from its application would seem certain. It being of animal origin, you will see at once that its ingredients must be all soluble in the soil. Its nitrogen, from nitric acid, is the most available form known to chemistry; the other part, from undecomposed animal matter, is preferable to the voiatle salts in Peruvian Guano. I ask of each of you the kindness of a thorough examination of the accompanying analyses by two of the great chemists of the country. With respect, yours truly,

GUARANTEED ANALYSIS. Ammonia, from both Nitrogen and Nitric Acid.... Bono Phosphate of Lime..... LETTER FROM PROF. WM. C. KERR, STATE GEOLOGIST OF NORTH CAROLINA: Raleigh, N. C., January 7th, 1874. Wm. R. Griffith, Esq., General Agent Guanahani Guano Company, Peters-

Dear Sir: Dr. F. A. Genth, whose Analysis of the Guanahani Guano you have shown me is Chemical Minerologist to the Geological Survey, and has no superior as a chemist. I have no hesitation in endorsing any analysis from his laboratory. And I think the analysis justifies his statement that the substance examined by him is a VALUABLE MANURE. From his report, and that of Prof. Wilson, it is evidently a TRUE GUANO, both in origin and composition, and its action on crops may be expected to be the same in kind and in degree proportioned to its relative per centage of the valuable ingredients—Phosphoric Acid, Ammonia and Potash, that of the first being unusually high. Yours truly,

W. C. KERR, State Geologist, ANALYSES.

The following analyses of different cargoes and samples by two of the leading chemists of the country, are given for the guidance of the public: LETTER OF PROF. P. B. WILSON, LATE ASSISTANT OF BARON J. VON-LIEBIG. CHEMICAL LABORATORY OF PROF. P. B. WILSON, No. 30 Second Street,

CHEMICAL LABORATORY OF PROF. P. B. WILSON, No. 30 Second Street,

Baltimore, December 1st, 1873.

MAJ. N. M. TANNOR, President Guanahani Guano Company, Petersburg, Va.:

Dear Sir: I have drawn samples of the Guano, as it has arrived in cargo lots, and find it exceedingly uniform in the amount of Phosphoric Acid it contains, namely, from 15 to 19 per cent. This is combined with Lime, and is of animal origin, and readily assimilable by plants. It contains potential ammonia and nitric acid, having a combined Nitrogen value equal to from 2 to 3 per cent. of ammonia, with the alkalies Potash and Soda, and valuable proportions of Sulphate of Lime. The whole forming a very desirable combination for all crops, and when applied to land, the crop receiving proper tillage, must, in my opinion, give as good results as any guano offered to the farmer.

Being of animal origin, the organic matter has undergone partial deco mposition, and it mecessarily contains a valuable amount of Humus, which makes its fertilizing power much greater than fertilizers which are compounded largely of Peruvian Guano, which, beyond its ammonia and small phosphatic value, has little or no power in absorbing from the atmosphere and retaining in the soil the movable elements absorbed by moisture and breught down by the rains, as the guano you are now placing upon the market. All of the components of this Guano are very soluble in the soil, and possess such physical properties as to render it at all times and ur der all circumstances as in mediately available plant food.

The late samples you sent me for analysis, from the deposit which you inform me you intend to ship from, show a decrease in the phosphatic value, but a large increase in its nitrogea compounds. I think, however, from previous observations of cargoes, that you may reasonably expect, that cargoes taken from where these samples were drawn, will materially improveed in the saline compounds, (phosphates, alkalies and magnesta.

WEST PHILADELPHIA, 19th, 1878.

Maj. N M. Taannor, Petersburg, Va.,

DEAR SIR: In compliance with your request, I have analyzed sample of "Gusnahani Guano," and have made additional examination of an average sample from a lot of 300 tons, the result of which, I beg to embrace in the following: The Guano is a brownish powder, with lumps of combinations of lime with Carboule, Phosphoric and Nitric acids. It contains a considerable quantity of water (about 20 per cent.), and when dried is a paler brown powder. The Guano is evidently of animal origin, and the minute bones, which were discovered in the same, indicate that it is the result of the decay of bats, mice, &c. The quantity of organic matter, which is still present, is about 12 per cent., and this yields about 2½ per cent. of ammonia. A portion of the nitrogen is present, as nitric acid, of which about 3 per cent. was found. All the nitrogen present would be equivalent to about 3½ per cent. of ammonia. The phosphoric acid in the Guano, about 12½ per cent., equal to 27 3 per cent. of bone pho-phate. A considerable quantity of the phosphoric acid, however, is present, as so-called neutral phosphate of lime, which, being slightly sole ble in water, renders the Guano as quick in its action, as a corresponding quantity of superphosphate would do. The small per centage of potash, which was found in the analysis, adds to its value.

From all the experiments which I have made of the Guanahani Guano, no doubt can exist that it is a valuable manure.

Yours truly,

UNIVERSITY OF PENNSYLVANIA.

Dear Sir: Yours in regard to the Guano was received some time ago, and as I know very little, personally, about the effect it had, I laid it aside until I could go home and in quire. I learn that it did improve the wheat to some extent. I did not apply any other Guano. I applied
Bone Dust, and I learn your Guano was of about the same efficacy in fertilizing, so far as the appearances of the crep indicated.

Bethel Academy, Fauquier County, Va., July 21th, 1873. Mr. E. A. DUNLAP,
Dear Sir: I used your Guano on my wheat last fall, and I am highly pleased with it.
Think it is as good as the high priced Guanos, I have a good paying crop of wheat, and the best stand of grass I ever had, and this is the opinion of those who have seen both, notwithstanding the unfavorable winter and early spring. I shall use it again this fall.

[This crop of wheat, 28 bushels to the acre, was noticed in the Wavrenton and Alexandria papers, as the finest crop in Mr. Smith's county.] GUANAHANI GUANO! GUANAHANI GUANO!

E. A. DUNLAP. Esq.,

Dear Sir: If I could have made collections, I certainly would have used two tons o
the Guano you sent me this fall.

I consider it better for wheat than any other Guano that has been used in this county

Respectfully yours,

M. C. BLACKWELL.

Baltimore, December, 1873. Mr. E. A. DUNLAP,

Dear Sir: The Guano purchased from , ou, was used upon cern by the side of one of the best ammoniated soluble phosphates in the market. The quality of the land was the same as was the quantity of guano and phosphate used. The corn where the Guano was used appeared to start sooner, and in the fall was fully ten inches higher and ripened earlier than where the Phosphate was used.

Very respectfully, &c.,

Late firm of Neale, Harris & Co, Commission Merchants.

We, the undersigned, have sold your Guano for two seasons. Those that have purchased are buying again, and are pleased with the results.

L. KELLUM & CO., 119 Hillen street, Baltimore.

Cheston, Near Queenstown, Md., August 13th, 1873.

Dear Sir: I have your favor of 4th inst., making inquiries as to the results from application of the Guano which you sent me last fall. I applied it at the rate of 170 pounds per acre—the same quantity as of the other fertilizers I was then using. The wheat throughout the field bore much the same general appearance, with perhaps something in favor of your Guano. The grain of my crop on that field was generally of fine quality, and I cannot say that I observed any perceptible difference in its appearance.

The result in quantity, (the most important point,) I regret not to be able to give you. Threshing my crop by steam power, my attention was occupied at many points, at the same time, and on one of these occasions this particular parcel of wheat was threshed before I was aware of it, and without any note of its comparative yield. I therefore cannot pronounce positively in its favor, over others; but, from its general appearance, I judge it quite equal to other standard fertilizers of established reputation.

Very respectfully yours, Cheston, Near Queenstown, Md., August 13th, 1873.

Baltimore, November 17th, 1873,

E. A. DUNLAP, Esq.,
The Guano I had of you last Spring, I used on corn, It produced a first rate crop. I used about 200 lbs. per acre.

E. D. HOOPES, Of E. D. Hoopes & Co., 226, 228 & 230, Penn. Avenue, Baltimore, Md. Dealers in Grain Country Produce, Guanos, &c. E. T. WROTH, Esq., Baltimore, Md.,

Dear Sir: Yours of the 4th received and contents noticed. You must excuse me for not reporting to you sooner the result of the experiment with your Guano. I seeded it by the side of \*\* \*\* \* 's Raw Bone Super-Phosphate, at the rate of 150 lbs. to the acre, of each. Whilst growing, I, nor any to whom I showed it, could not perceive the least difference. The yield was equally good—about 25 bushels to the acre. I consider it equally as good as \*\* \* \* \* \* 's, in every respect. Please inform me the price, as I intend using some on wheat this fall.

Very respectfully yours, THOS. SUDLER. Mount Airy, Carroll County, Md., November 13th, 1873.

Wm. R. Griffith, Esq., General Agent,
In reply to yours of the 12th, will say, the farmers can say but little, as yet, in regard
to Guanahani Guano. But Maj. A. G. Davis, who used one bag, by the side of several
other fertilizers, says, so far, the Guanahani looks better than any of the others. All
parties say, so far, they can see no difference in their grain wherever it is up sufficient
to judge. By the Spring, I can give you a more satisfactory report. Hoping to have the
pleasure of a visit from you, soon,
I am, truly yours,

P. S.-I have commenced making a stir for the Spring trade. San Marino, Dinwiddle Co., Va., November 15th, 1873.

W. R. GRIFFITH, Esq.,

Dear Sir: Yours of the 12th inst., was received on yesterday, and, in compliance with your request, I hasten to reply. I purchased half ton of Guanahani Guano, from Mesars. Rowlett & Tannor, ist of October, 1873, to use upon my wheat crop, as an experiment. I applied it 200 lbs. per acre. The wheat was seeded from the 10th to the 17th of October. I was very careful in the application, leaving two strips of land through the field; one of an acre, the other two acres. The one acre strip was manured with \*\* \* \* \* Phosphate. The two acre strip was in tobacco, heavily manured with stable manure and \* \* \* \* \* Tobacco Fertilizer. I also added a strip of very poor land (stubble) on one end, three-fifths of an acre. Upon this I applied 100 lbs. of Guanahani, and also moistened the wheat and rolled it in the Guano. (I mean the wheat sown upon this three-fifths strip.) The season has been favorable, and the young wheat is looking very well; and that upon the narrow strip of poor land, equally as good as upon the heavily manured tobacco land. I am satisfied that the Guano is acting upon this strip of wheat, as the land was very poor. I do not think that it would be well for me to make a positive assertion just yet, bu will carefully note the result and let you hear from me again.

Yours respectfully.

THOS. F. RIVES. San Marino, Dinwiddie Co., Va., November 15th, 1873,

Kingston, Dinwiddle Ce., Va., November 28th, 1873.

Messrs. Rowlett & Tannor,

Dear Sirs: In reply to your inquiries in regard to the Guanahani Guano, which I purchased last summer, I can only say that I applied it on my wheat crop, sowing it broadcast and plowed it in with the wheat. So far, I am vary much pleased with the Guano. Where I used it, the wheat looks better than any I have seen, and my neighbors who have seen it, consider it so. I applied it the first of October, and it shows very plainly over the wheat where there was nothing used.

Very respectfully,

JOHN J. MITCHELL.

JOHN J. MITCHELL. Millstone Landing, Md., December 1st, 1873.

Mr. E. A. Dunlap,
Dear Sir: I am just in receipt of your letter, but regret that I did not receive it sooner.
I used your Guano, side by side with \* \* \* \* \* 's Ammonisted Super-Phosphate, and
could perceive no difference, only in growth of the straw. The straw from \* \* \* \* \* 's
rather the largest. The grass from it was equally as good, and I do not hesitate in recommending it to farmers as a reliable for tilizer.

Very respectfully,

ELKANAH WISE. Dinwiddle County, Va., November 21st, 1873.

Messrs. McILWAINE & Co., Petersburg, Va.,
Gentlemen: I used the Guanahani Guano, purchased of you, on wheat at the rate of
300 lbs. per acre, on corn land. The wheat is looking well. I think it will prove a good Respectfully, A. M. ORGAIN. Sussex County, Va., December 12th, 1873.

Dear Sirs: I used on my wheat, sowed about the 1st of October, a half ton of Guanahani Guano, and so far I am very much pleased with its action. Where I used the Guanahani the wheat is looking remarkably well—a great deal better than the wheat sown on a pea fallow.

Very respectfully, J. N. WINFIELD. Prince George County, Va., December 19th, 1873.

Messrs. Bishop & Branch,
Sirs: You ask me my opinion of the Guanahani Guano I puechased of you last fall.
I used the guano on my wheat, but owing to the unfavorable fall for the growth of wheat, it would be impossible for any manure to show its strength fully. Fowever, I think the guan oa good fertilizer, from the fact, that the wheat looks as well as it does where a well known fertilizer was used that cost nearly double the money.

Respectfully,

A. G. JORDAN. Petersburg, Va., December 16th, 1873.

WM. R. GRIFFITH, General Agent of the Guanahani Guano Company,

Dear Sir: In reply to your enquiry about the action of the Guanahani Guano on my
wheat crop, I would say, up to the present time it is looking very well.

Yours truly,

SAMUEL H. JONES,

Prince George County, Va.

Broad Run Station, Fauquier County, Va., December 4th, 1878. Mr. E. A. DUNLAP,
Dear Sir: I left one row without your fertilizer, and used it on the next row. I used at the rate of 200 pounds to the acre. I had the corn carefully gathered separate, and found the result as follows: From the Guano row I shelled one bushel and nearly a half gallon; from the row without guano I got a half bushel and not quite a quart; making fully double where I used guano. The growth of stalk was not proportionately heavy—the strength seemed to go to the grain. I think it an excellent Spring fertilizer. The land I tried it on was quite thin.

Yours, &c., Poplar Mount, Greensville County, Va., December 17th, 1873.

Mesers. Rowlett & Tanner.
Gentlemen: Yours of the 15th is received. You ask "How I like the Guanahani Guano, so far?"
In reply I have to say that I used five bags last fall, experimentally. I applied four bags to wheat at the rate of 200 pounds to the acre. I used the same quantity (200 pounds) on winter oats. The wheat was not sown until about the 20th of October, but has already a healthy vigorous blade. The present indications lead me to believe that it is decidedly superior to any of the super-phosphates.

The winter oats we e sown the last of September. In the application to this crop, I have, in consequence of earlier seeding, a better opportunity of observing the effect of the Guanahani Guano. Here it is most marked and decided. It reminds me of former days, when, for a moderate outlay of money, the farmer purchased the pure Chinchs Island. (unadulterated) Peruvian Guano.

I wish to try some of this Guano next year on cotton and tobacco.

I am, very truly yours,

GEORGE W. FIELD.

GEORGE W. FIELT. The Company recommend an application of from 200 to 250 pounds per acre, but not over the larger amount.

As it will be impossible to bring but few theusand tons to this country in time for the spring irade, orders must be sent at an early day to secure it.

Advices in Relation to Mardi Gras— Louisiana Matters—Congressional —Pinchback Timed.

WASHINGTON, Jan. 22.—The State Department has confidential advices of the progress of the King Carnival. While withholding the details, Secretary Fish authorizes the assurancement that the Rex will reach his favorite city of New Orleans on the 17th day of February of the present year.

There is a lull in Louisiana matters. The issue will be approached Monday There is no occasion to correct the impressions produced by the dispatches of the last two days.

LATER-Sheldon, Sypher Harris and Pitkin called on the President against a new election. Carpenter and Butler also called upon him for the purpose of a consultation over the features of the new election bill. In the Senate Spencer, from the Commerce Committee, reported favorably on the bill to facilitate the execution and protection of certain works of improvement at the mouth of the Mississippi River. He asked for its present consideration, but Clayton, of Arkansas, objected, and the bill went over.

It may be stated absolutely, that at this hour, 12:50, Washington time, Pinchback favors a new election in Louisiana.

General Sheldon was not of the Louisiana delegation which visited the President to-day. Without taking any active part in the matter, General Sheldon is of the opinion that there will be no new election in Louisians. No Southern nominations to-day.

Ice Flood in the Buffalo River-

Great Danger to Shipping Property. BUFFALO, N. Y., Jan. 22.—The weather and high winds caused the ice in the Buffalo river to move about 11 o'clock this morning, piling it up in such force against the bridge over Ohio street as to carry away that strong structure, and in its course sweeping away ten first class vessels down the stream, piling the men masse against the Michigan street bridge. The bowsprits of the vessels in their rapid course carried away the lower part of Plympton's elevator and inflicted serious damage to the City and Enagaroelevators, and completely demolished the sheds of the New York Central Railway Company. The loss is estimated at a million of dollars; the damage to Plympton's elevator is \$20,000. The Michigan street bridge still holds against the accumulated mass, but should it give way, there is no calculating the damage to vessels and property below. The water is now overflowing the banks, and running into the Lake through the Hamburg Canal. The greatest excitement prevails.
